

**LED QUADRANTS FOR GREATER FLEXIBILITY**

With the new VS LED Light Panel Quadrant, we can offer you a high-end lighting solution that is particularly suitable for large, round ceiling and pendant luminaires for home use. But since these LED modules are equally perfect for wall luminaires in the form of semicircles or quadrants, you can let your creativity run wild.

These highly efficient LED quadrants are quick and easy to combine to form a full circle thanks to simple push-in connectors.

And they come with clips for easy fixing within the luminaire, which goes to save yet more time during installation.

**LED Light Panel Quadrant**

- Highly efficient: up to 158 lm/W
- Colour rendering index (CRI): R<sub>a</sub> 80
- Low colour tolerance: 3-step MacAdam
- Pre-assembled optics for homogeneous area lighting
- Simple module-to-module connections
- Long service life: > 50,000 hours (L80/B10)
- 5-year product warranty

LED Light Panel Quadrant**

**Matching Constant Current Drivers**

Matching constant current drivers in a short linear casing and with selectable current via LEDSet are naturally also available at Vossloh-Schwabe.

- For the main application of circular ceiling luminaires, we recommend our LED driver 186585 with an output of up to 40 W at an operating current of 100–400 mA.
- Extremely low ripple current (in acc. with IEEE1789-15 and SVM)
- Very high power factor: > 0.96
- Selectable output current via LEDSet
- Long service life: up to 100,000 hours
- Suitable for central battery systems powering emergency lighting (in acc. with EN 50172)
- 5-year product warranty
